

**St. Michael's University Church**  
*A Welcoming Inclusive Community in the Heart of Isla Vista*

# **BECOME A COMMUNITY GARDENER!**

**Raised bed plots are available for organic gardening  
by students and families in Isla Vista!**

Thanks to grants received from the IV Co-op and All Saints' Church in Montecito, St. Michael's University Church has built a 16 raised bed community garden for use by community members. If you're interested in gardening at St. Mike's or helping to develop this community resource, please contact us! Half of a raised bed is available for a student, group of students, community member or family to grow healthy, organic food. It's free – though we will ask for a nominal monthly fee to help offset our water bill (\$10 or less). An application, interview and signed contract is required. Gardeners will be required to attend a monthly or every other month meeting with others in the St. Mike's garden community.

To be placed on a list indicating your interest please contact The Rev. Nicole Janelle at [revjanelle@gmail.com](mailto:revjanelle@gmail.com) or 805/968-2712

**St. Mike's is located on the corner of  
El Greco and Camino Pescadero streets in IV.
